Gear Up

tackling the future

Share your passion of fishing with others by donating your used quality fishing equipment to the **"Gear Up — Tackling the Future Fishing Program"**.

The program is designed to collect used fishing equipment, re-furbish it, and then share it with others. Your support and simple donation will help gear up children, families, and those less fortunate with the equipment needed to get them started in fishing.

This program is a uniquely "Made in Manitoba" angling initiative that is supported by anglers like you.

Whether it is a fishing rod, reel, net, or tackle box, your equipment will go to those people who need a helping

hand to get them fishing or create a new angling program in our province.

To find out where you can drop off your fishing equipment, please visit www.gearup.ca.

Please donate today!
